Fully Remote | Flexible Across Global Time Zones

## Summary

---

Senior Full Stack Web Developer with 10+ years of experience designing scalable, high-performance web applications. Proven leader in full-cycle project delivery, legacy modernization, and e-commerce development using React, Next.js, Node.js, Laravel, AWS, and BigCommerce. Skilled in mentoring junior engineers, leading cross-functional teams, and driving solutions in Agile environments. Fully remote-ready and flexible across global time zones.

## Skills

---

**Frontend:** React, Next.js, Angular, Vue.js, HTML, CSS, JavaScript, Bootstrap

**Backend:** Node.js, Python, Laravel, GraphQL, PHP, MySQL, Oracle, Firebase

**Cloud & DevOps:** AWS, Azure, Google Cloud, Git, Docker, Kubernetes, DevOps, Cloud Computing

**Architecture & Process:** Technical Design Documents, Agile/Scrum, Software Integration, E-commerce Development

**CMS & Platforms:** Sitecore, BigCommerce, CMS

**Others:** Cross-functional Collaboration, Mentoring, and Documentation Management

## Experience

---

*Senior Frontend Developer*

*Nov 2022 – Present*

*Hack/House*

*Toronto, Canada (Remote)*

- Contributed to the migration of a legacy e-commerce platform to BigCommerce, resulting in a 40% improvement in load time and a 25% reduction in bounce rate.
- Developed UI components with a strong focus on UI/UX best practices using React, Next.js, and Bootstrap.
- Integrated RESTful APIs and third-party services to improve product data synchronization accuracy and consistency across the e-commerce ecosystem.
- Refactored backend code in Laravel and GraphQL to improve performance, reduce errors, and make the system easier to maintain.
- Maintained AWS infrastructure and built CI/CD pipelines using tools like GitHub Actions and CodePipeline to automate testing and deployment.
- Monitored and resolved production issues using tools like CloudWatch and Sentry, ensuring 99.99% system uptime and rapid incident response.
- Maintained secure development practices across frontend and backend, preventing common vulnerabilities

- Wrote comprehensive technical documentation and mentored three junior developers.

*Senior Full Stack Developer*

*Aug 2020 – Aug 2022*

*Keller Williams Realty, LLC*

*Austin, TX, USA (Remote)*

- Led sprint planning and Agile ceremonies for distributed teams, improving collaboration and ensuring timely delivery of high-impact features aligned with business priorities.
- Designed and implemented backend architecture using Node.js, MySQL and Oracle databases for real estate systems.
- Collaborated with UX designers and product stakeholders to build intuitive, responsive applications tailored to agent and client workflows, improving user satisfaction and engagement.
- Oversaw backend team responsible for agent-facing tools used across 150+ offices, ensuring secure data flows and consistent application performance across platforms.

*Mobile & iOS Developer*

*Jun 2017 – Aug 2020*

*SARCHITECH LTD*

*London, UK (Remote)*

- Developed responsive web applications for both desktop and mobile devices, ensuring seamless user experience across multiple screen sizes and platforms.
- Built and maintained cross-platform mobile applications using React Native for Android and objective-c, swift for iOS, integrating rich UI components and native device features to meet client requirements.
- Collaborated closely with backend teams to design and consume RESTful APIs, enabling efficient data flow between mobile apps and server-side services, while maintaining security and performance.
- Actively troubleshooted and resolved platform-specific bugs, improving app stability and user satisfaction through rigorous testing and iterative updates.

*Software Developer*

*Apr 2015 – Apr 2017*

*Altoros*

*Pleasanton, CA, USA (Remote)*

- Developed over 10 responsive and standards-compliant websites using HTML, CSS, JavaScript, and Laravel, each customized based on individual client design specs and functional requirements across multiple industries.
- Participated in various contract projects that helped strengthen foundational programming knowledge in C, C++, Python, and Java while learning about real-world application deployment and user testing practices.

## *Education*

---

*The Hong Kong University of Science and Technology*

*2010 – 2014*

*Bachelor's Degree, Information Technology Project Management*
